IT PAYS TO ADVERTISE

In advertising sent from this office, which appeared in the state press last week, the subject being, "Senator Page Makes a Speech," the following paragraph appeared:

"The Vermonter in Washington who heard Senator Page's speech writes further on the situation. He says that the Hoke Smith vocational educational bill is on the senate calendar, but that it will not be acted on this session."

This information, received by The Allen M. Fletcher Senatorial Club, presented the condition as it then existed in Washington. The following news item appeared in the St. Albans Messenger on Friday, August 4:

"Washington, Aug. 4.—The vocational educational bill which passed the senate the other day without debate or notice of any kind, is to be pressed upon the House in an eleventh hour attempt to secure enactment before the adjournment of Congress.

It had been thought that the Senate calendar was too crowded to allow room for this bill at this time, and the plan had been to postpone the enactment of this legislation till the December session. Favorable reports on the bill were made some weeks ago by both committees which handled it."

Is it not true, Senator Page, that the Smith Vocational Educational bill would have passed the Senate if you had not spoken or voted for it?

Is it not true, Senator Page, that for purely political purposes you at this time urged yourself upon the Senate to make a speech upon a bill which had been favorably reported and which as the St. Albans Messenger news item says, "PASSED THE SENATE THE OTHER DAY WITHOUT NOTICE OF ANY KIND."

We have no disposition to minimize the importance of any bill which provides better educational facilities for the youth of the land, but we respectfully suggest that Senator Page's record is the issue and in the words of the Vergennes Enterprise, "Senator Page's Vocational Educational bill was a fizzle and was lost in the shuffle."

What is there about Senator Page so sacrosanct as to forbid legitimate and truthful criticism of any of his public or official acts?

Will Mr. Page Answer?
